

The LAP Association Incorporated

Established 1994

Invitation to Membership 2021

Enabling students to develop resilience and wellbeing through positive mentoring relationships.

LAP has been established to provide individual support and care for students of all ages with varied learning and emotional needs, through the positive participation of mentors.

LAP has always been about providing one-to-one time for students in support of their learning and wellbeing and the opportunity to honour the valuable contribution of our mentors.

The LAP Association is committed to supporting schools to expand or re-energize their LAP programme, and we invite and encourage every school that has LAP in place to join the Association this year.

If you would like more information about starting your own programme, please contact us. We can arrange for you to visit one of our accredited or long established schools to see LAP in action or for someone to come to your school and provide you with some resources and training.

We welcome your membership in 2021 and look forward to being of service to you.
