The Learning Assistance Programme (LAP) Association Incorporated

Established 1994

Invitation to Membership 2020

Enabling students to develop resilience and wellbeing through positive mentoring relationships.

LAP has been established to provide individual support and care for students of all ages with varied learning and emotional needs, through the positive participation of mentors.

LAP has always been about providing one-to-one time for students and the opportunity to honour the valuable contribution of our mentors.

The LAP Association is committed to supporting schools to expand or re-energise their LAP programme, and we invite and encourage every school that has LAP in place to join the Association this year.

If you would like more information about starting your own programme, please contact us. We can arrange for you to visit one of our accredited schools to see LAP in action or for someone to come to your school and provide you with resources and training.

We welcome your membership in 2020 and look forward to being of service to you.
